“Turning data into intelligence, and intelligence into impact.”

Education

University of Bojnourd

B.S. IN COMPUTER SCIENCE

Grade: 15.41/20

Bojnourd, Iran

2021 - 2025

Skills

Programming Python, C++

AI & Data Science NumPy, Pandas, Scikit-Learn, PyTorch

Backend & Database SQL, Redis, Django REST Framework

Tools Git, Docker, Linux

Projects

Credit Card Fraud Detection

PYTHON, SCIKIT-LEARN, LIGHTGBM, PANDAS, NUMPY, MATPLOTLIB

July 2025

- Developed machine learning pipelines for detecting fraudulent credit card transactions using classification models and feature engineering.
- Handled severe class imbalance using SMOTE and optimized decision thresholds based on precision-recall trade-offs.
- Implemented and compared Logistic Regression with ElasticNet regularization and LightGBM using evaluation metrics including F1-score, ROC-AUC, precision, and recall.
- Generated ROC and Precision-Recall curves, confusion matrices, and performance visualizations for model evaluation.
- [GitHub Repository](#)

Extracurricular Activity

Computer Science Scientific Association, University of Bojnord

CENTRAL COUNCIL MEMBER (EXECUTIVE BOARD)

Bojnourd, Iran

2023 - 2025

- Co-initiated and co-organized the 1st UBPC Algorithmic Programming Contest.
- Co-organized the 2nd UBPC Algorithmic Programming Contest.
- Developed and deployed the registration website for three consecutive UBPC contest editions.
- Contributed to strategic planning, coordination, and execution of academic and technical events.
- Collaborated with faculty advisors and executive board members to enhance student engagement in computer science activities.

Certifications

2026	Data Analysis and Preparation with Python , FaraDars	A3B147A4
2025	Fundamentals of Deep Learning , FaraDars	D5D58FFF
2025	Machine Learning Fundamentals with Python , FaraDars	C0BCD45E
2023	Advanced Django , MaktabKhooneh	MK-498GRN
2023	Django 3.2 , MaktabKhooneh	MK-M6FYLH
2022	Advanced Python Programming , MaktabKhooneh	MK-N44X83
2022	Python Programming for Beginners , MaktabKhooneh	MK-ITAIA1
